Mohammed Senan

Software engineer

+96770884337 mohammedsnan850@gmail,com

Profile Summary

Full-Stack & Cross-Platform Developer with a diverse technical repertoire covering modern software demands. I combine full-stack web development proficiency through JavaScript and CSS for building dynamic frontends, alongside Java and C# for developing robust backend business logic. I am capable of delivering innovative multi-platform solutions using Flutter, with a consistent commitment to writing clean, maintainable code. Furthermore, I leverage C++ to resolve complex computational challenges and optimize performance in high-demand applications.

Work experience

Freelance Web & Mobile Developer

Self-Employed | 2023 – Present

- Designed and developed responsive websites as academic projects for university professors, catering to first-level and second-level course requirements.
- Engineered cross-platform mobile applications for Android, iOS, and Web using Flutter, ensuring a consistent and seamless user experience across all devices.
- Integrated applications with Firebase services, implementing real-time databases, user authentication, and cloud storage to enable dynamic data synchronization and scalable backend functionality.

Cashier & Customer Service Representative

Sinan Exchange Company | [Seiyun / Hadhramaut / Yemen] | [Mar/ 2025] – Present

- Served as a Cashier across multiple branch locations, managing high-volume daily financial transactions with 100% accuracy and strict adherence to regulatory compliance protocols.
- Processed currency exchanges, remittances, and other financial services while maintaining detailed transactional records and reconciling daily cash balances.

Education

Bachelor of Science in Information Technology – Software Engineering Track

Seiyun University | College of Computer Science | Seiyun, Yemen

Expected Graduation: July 2027

- Current Standing: Completed Level 3 (Third Year) – Senior Standing
- Academic Transition: Successfully completed the General Information Technology foundation program (Levels 1 & 2), then advanced to the Software Engineering specialization track commencing Level 3.
- Cumulative GPA: 3.0 out of 4.0 (Equivalent: 75%)
- Relevant Coursework: Object-Oriented Programming, Data Structures & Algorithms, Database Management Systems, Software Development Life Cycle (SDLC), Web Development, Mobile Application Development, Operating Systems, and Network Fundamentals.

Skills

Technical Skills

- Programming: C++, C#, Java, JavaScript, Dart
- Frontend & Web: HTML5, CSS3, JavaScript
- Mobile: Flutter (Android, iOS, Web)
- Backend & Database: Firebase (Firestore, Authentication, Storage), SQL
- Tools & Platforms: GitHub, VS Code, Android Studio, Figma, Postman
- Concepts: OOP

Soft Skills

- Problem-Solving & Analytical Thinking

Certifications /Training

Flutter & Dart – Complete Training

- CoursePlatform: Self-Learning via YouTube

Projects

Two-Way Shop – E-Commerce Platform

Technologies: Flutter, Dart, Firebase (Firestore, Authentication, Cloud Storage), RESTful APIs

Platforms: Android & Web (Cross-Platform)
